

AWS login now requires separate credentials to CalSAWS login credentials.

Follow steps to reset password:

A screenshot of the AWS "Sign in" dialog box. The dialog has a dark background. At the top, it says "Sign in". Below that, there is a "Username:" label followed by a text input field containing a redacted name and a "(not you?)" link. Underneath is a "Password" label followed by a password input field. To the left of the password field is a checkbox labeled "Show password". To the right of the password field is a "Forgot password" link. At the bottom, there are two buttons: a prominent orange "Sign in" button and a grey "Cancel" button.

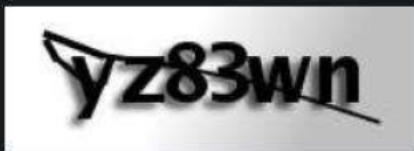

- A. Logon with username been using to logon to AppStream.
- B. Click on "Forgot password"

Forgot password

Verify that you're a real person. Enter the characters from the image below.

Amazon Web Services will never email you and ask you to disclose or verify your password, credit card, or banking account number. If you receive a suspicious email with a link to update your account information, do not click on the link. Instead, report the e-mail to Amazon Web Services for investigation. For help and support, visit the [AWS Support Center](#).

A. Click link as shown to reset your password.
