Current Design: PB00S882 and PB00S883 sanction job uses Batch 10-day cutoff to determine the Sanction effective date. Please find more detail in CA-259546.

PB00S934 synchronize Eligibility Non-Compliance records with WTW/REP Program status 'Sanction' record. Please find more detail in CA-50303.

Request: Update Sanction batch logic (PB00S882 & PB00S883) to align with the Non-Compliance batch (PB00S934). PB00S882 & PB00S883 jobs will use the Eligibility 10 day date similar to the PB00S934.

Recommendation: Update Sanction batch logic (PB00S882 & PB00S883) to align the Begin date logic with the Non compliance batch (PB00S934).

Create a DCR to update the Sanction begin date to match with the Eligibility Non-Compliance record begin date. The DCR will update records that were created by (PB00S882 & PB00S883) batch.
