Additional information about positions:

Work Environment

All positions on the CalSAWS Project are full-time positions. The Project works mostly remote; however, there will be times that staff are expected to come to an office or visit a county for scheduled activities/meetings.

Travel

Some travel is required throughout the state for most positions. Travel expenses are covered through your employer's short-term travel policy and claimed back to the CalSAWS Project.

Types of Positions

Long-term positions are positions that continue with no prescribed end date.

Limited-term positions have an anticipated end date:

- *These positions will be assigned to support transition activities or backfill long-term project staff who are working transition assignments and will return to their long-term position at the end of their limited-term assignment.*
- *The anticipated start and end dates for limited-term positions will be discussed as part of the interview process but will range from six-months to 12-months.*

Non-County Candidates - Regional Government Services (RGS) is a Joint Powers Authority that provides human resources and personnel administration for public agencies and municipalities. Payroll and benefits with RGS are comparable to working for a county; however, there is no reciprocity for years of service as there is between most counties with respect to retirement. RGS offers comparable pay and benefit packages for employees, which includes an employer retirement contribution and 401k offerings.*
