Current Design:
The System generates and sends a file to MEDS containing CalFresh persons receiving SSI or SSI/SSP Income. After sending the file, MEDS provides a one-time response file that includes elements in the initial outbound file, as well as additional SSI and/or SSP Paid and Eligible amounts. CalSAWS processes the inbound file and update Other Program Assist (OPA) records with the new SSI or SSI/SSP amounts. CalSAWS generates an exceptions list containing records that could not be processed.

SCR CA-226308 implemented the interface.
SCR CA-243012 updated the interface to process Eligible amounts.

Request:
For CalFresh:
Generate and send a file to MEDS, for the benefit effective month of 2/2025, containing CalFresh persons receiving SSI or SSI/SSP Income. After sending the file, MEDS will provide a one-time response file that includes elements in the initial outbound file, as well as additional SSI and/or SSP Eligible and Paid amounts. CalSAWS will process the inbound file and update OPA records with the new SSI or SSI/SSP Eligible amounts.

Recommendation:
Create a BSCR to schedule a one-time run of PO00E427 (SSA COLA Writer), PO00E428 (SSA COLA FTP). Ensure PO00E427 runs for the benefit effective month of 2/2025.
