

Release #	Release Date	Item Type	Item Number	Functional Area	Programs Impacted	Original Behavior	New Behavior	Ticket Number	Additional Information	County Action
24.10.03	3-Oct-24	SCR	CA-277446	Eligibility	General Relief	San Diego County is currently using the Maximum GA/GR Automated Solution amounts effective October 1, 2023.	San Diego County's GAGR Automated Solution maximum grant amounts will be updated with the new grant amt effective Oct 1, 2024.			No County Action Needed
24.10.03	3-Oct-24	SCR	CA-283160	Fiscal	CalFresh	Previous Design/Problem: September 2024 CF benefits were issued as usual.	For the following Counties: Calaveras, Humboldt, Lake, Los Angeles, San Bernardino, Sierra, Siskiyou & Tuolumne. September 2024 CalFresh benefits issued 09/01/2024 - 09/10/2024 in affected zip codes have been replaced at 60% of the original issuance amount.			Review List
24.10.03	3-Oct-24	SCR	CA-274104	Medi-Cal/CalHEERS	Medi-Cal/MSP/CMSP	Users cannot link a MAGI referral to a CoSAWS case with existing linkage to a different MAGI/CalHEERS case. The user receives the following CoSAWS page validation: "Form Error - The selected case is already linked to CalHEERS Case <Current MAGI Case Number>. Please select a different case or create a new one." When the Inter-County Transfer (ICT) Indicator is sent in an Eligibility Determination Request (EDR) the MAGI Request Detail page does not display to the user that the ICT Indicator is being sent as "Yes". When the user updates the Person Number on the Case Summary or the Person Association Detail pages, the system includes the "Update SAWS Person Association Indicator" with a value of Yes in the EDR but does not display this to the user. The SAWS Person Number is listed as MEDS PN in the MAGI related pages.	CoSAWS will not prevent users with the proper security rights from linking a MAGI Referral to a CoSAWS case that had prior linkage to a different MAGI/CalHEERS Case during the MAGI Referral Linking flow. The system will automatically perform a MAGI Case Search and allow the user to update the linkage if the Search Results confirm that the already linked MAGI Case has no ongoing or Pending MAGI Medi-Cal in CalHEERS, the COR is released (or is same county), and there is no actively linked SAWS case. The Previous Case List page will display the MAGI Case Number from the MAGI referral and the MAGI/CalHEERS Case Number(s) already linked to existing CoSAWS cases. The user will be able to link the MAGI referral to the existing CoSAWS case using the new "MAGI Case Linkage Update Confirmation List" page. When sending an EDR, the MAGI Request Detail page will display the "Inter-County Transfer" and "Update Person Association" indicators to the user. The MEDS PN label is updated to display as CoSAWS PN in the MAGI related pages. Some of the labels and the order in which information is displayed in the Case Members section of the MAGI Request Detail page were updated.			No County Action Needed
24.10.03	3-Oct-24	Defect	CA-282169	Reports		To populate the Payroll Customer EBT Cancellations and Expungements Report for the affected county which was generating a blank report	Code changes have been implemented to update the county filter and to eliminate the hardcoded county code filter in the PySpark code allowing the report to be generated for the affected county.	PR8004962		No County Action Needed
24.10.03	3-Oct-24	Defect	CA-280447	Reports		Issue 1: CalFresh Application Processing Timeliness Dashboard reports All the dashboards need to include both Approved and denial Status The dashboards having Approved in title need to be changed to Processed and Y-axis name to be changed accordingly Issue 2: CalFresh Applications Approved within 30 & CalWORKs Applications Processed within 45 days dashboards Timeliness Indicator for both the dashboards should be defaulted to "Timely" Issue 3: Medi-Cal Applications Processed Re-Analyze the Processing time logic with different case number and higher Processing_Time values	Issue 1: CalFresh Application Processing Timeliness Dashboard reports All the dashboards now include both Approved and denial Status The dashboards having Approved in title changed to Processed and Y-axis changed accordingly Issue 2: CalFresh Applications Approved within 30 & CalWORKs Applications Processed within 45 days dashboards Timeliness Indicator for both the dashboards defaulted to "Timely" Issue 3: Medi-Cal Applications Processed Re-Analyze the Processing time logic with different case number and higher Processing_Time values. Changed logic for Batch Dates to reduce the processing times.	PR80049624		No County Action Needed
