Description:	**Purpose**
	The purpose of this CIT is to notify CalSAWS Counties about reduced availability of CalSAWS AWS AppStream services.
	Background
	In response to COVID-19 safety protocols established in 2020, the CalSAWS project Initiated emergency provisioning of AppStream to County Social Services Agencies that did not have a local County VPN option. CalSAWS AWS AppStream was provided as a short-term solution to facilitate secure remote work during the COVID-19 pandemic. Additionally, CalSAWS AWS AppStream enabled county testing during migration to CalSAWS.
	Due to completion of County network connectivity to CalSAWS and all migration activities, CalSAWS AWS AppStream access will sunset effective January 1, 2025.
	Additional Information
	The CalSAWS project will continue to provide CalSAWS AWS AppStream to access APEX (ad hoc report development tool), Oracle SQL Developer (database query tool), and Exstream (GA/GR correspondence design tool).
	This CIT replaces CIT 0048-20

	We hope that CalSAWS AWS AppStream eased the burden placed on your County during the pandemic and transition. If you have questions about this CIT, please reach out to the contacts noted below and copy your Regional Managers.
