25.01.09	9-Jan	Defect	CA-285969	Eligibility		Previously, the CalWORKs rules for deciding which benefit-month is the earliest one when a removed-from-home-by-CWS child who entered FC/KG can be given "both" an "Out of the Home" status-reason "and" a "Gets FC" (or "Gets KG") role-reason would choose the month that's 2 months ahead from the one containing the date on which the child entered FC/KG (as indicated by that child having a "TO"-status-with- "CK"-reason HH_STAT record with its BEG_DATE-value being the day on which the child entered FC/KG)... "UNLESS" that FC/KG entry date fell "on the 1st day" of its month, in which case the rules would instead choose the month that's immediately after that month.	Now that the bugfix for this defect has been implemented; those rules will "no longer" treat a month's 1st day specially in that way. What those rules will do now is this: - Choose the month that's 2 months ahead from the one containing the date on which the child entered FC/KG in that case... - ..."UNLESS" the month immediately after the one containing the date on which the child entered FC/KG is February, in which case those rules will instead choose the month that's 3 months ahead (rather than only 2 months ahead) from the one containing the date on which the child entered FC/KG.
