25.02.27	27-Feb	SCR	CA-286433	Medi-Cal/CalHEERS	Medi-Cal/MSP/CMSP	In order for Medi-Cal EDRC Rules to evaluate an individual for a Qualified Medicare Beneficiary (QMB) eligibility determination, the individual must have both Medicare Part A and Part B enrollment entered on the Medicare Detail page.	Medicare Part A is no longer an eligibility requirement to be eligible for QMB. Per Department of Health Care Services (DHCS) direction, a Medicare Part A record was created for individuals with a Medicare Part B record, a high-dated Customer Options record for 'Full Medi-Cal Hierarchy' = Yes, and who have income at or under 100% Federal Poverty Level (FPL). Until the Medicare Part A requirement for a QMB eligibility determination is updated in the system, the addition of the Medicare Part A record will allow an individual to be evaluated for QMB and if eligible, enrolled by the state into Medicare Part A buy-in.
