Other Agency Cross Reference:					

Current Design:

Currently on the Health Care Referral List page there are questions referencing the Child Health and Disability Prevention Program (CHDP). However, effective July 1, 2024, CHDP will sunset. As such, any references to CHDP will need be to be removed.

Request:

Remove all questions that are related to Child Health and Disability Prevention Program (CHDP) on the the Health Care Referral List page.

Recommendation:

1. Update the Health Care Referral List page to no longer display questions A include all sub questions under question A.
   A) Update the labeling for all the questions found on the Health Care
      Referral List page (reference the attachment Health Care Referral
      List.png)
         i) Label Question B as Question A, Question C as Question B,
            Question D as Question C, Question E as Question D.
   B) Update the verbiage 'If you answered "Yes" to the first two questions in section D., you may be eligible for services provided by
      the Special Supplemental Food Program for Women, Infants and Children (WIC)' to 'If you answered "Yes" to the first two
      questions in section C., you may be eligible for services provided by the Special Supplemental Food Program for Women,
      Infants and Children (WIC)'.
2. Changes being done under Recommendation #1 will not impact e-Application Summary page as Question A
   that have the reference to CHDP will continue to remain on the e-Application summary page.
3. Update Page Mapping to remove any references for the questions that are being removed/updated
4. Accessibility updates:
   A) ARIA hidden element must not be focusable or contain focusable
      elements
   B) Certain ARIA roles must contain particular children
5. Automated Regression Test updates:
   A) Remove any Health Care Referral List mappings associated to the CHDP fields. Remove references to
   these fields from all existing regression scripts.
   B) Rename any impacted Health Care Referral List mappings to match the labeling and text outlined in 1A and
   1B above. Update references to these fields in all existing regression scripts.
      Technical Note: The list of potentially impacted scripts as of 6/26/2024 is captured in the "Regression Script
   List.txt" attachment.
   C) Create a new regression script to verify the latest Page Mapping entries for the Health Care Referral List
   page.

Assumptions:
1. No changes to Self-Service Portal at this time as it is pending changes on the SAWS2Plus
Note: There is no Design Document for this SCR

Outreach Description:

Operational Impact:	
Release Note Required:	Yes
Release Note Status:	Pending QA Review
Release Note - Previous Design/ Problem:	The Health Care Referral List page contains questions related to the CHDP program.
Release Note - Now:	The Health Care Referral List page no longer contains questions related to the CHDP program.
Release Note - Additional Information:	
Release Note - Functional Area:	
Release Note - Page/ Forms/Reports Impacted:	Health Care Referral List page
