**Current Design:** With SCR CA-284056  
CalSAWS recently updated the 2025 FPL values based on ACWDL 25-01. Any 2025 Medi-Cal EDBC run prior to the update used the 2024 FPL values per ACWDL 24-02.

**Request:**

- Run Batch EDBC for Medi-Cal cases in accordance with ACWDL 25-01 so that the new FPL values are correctly applied. The effective date of the 2025 FPL values vary as follows:
  - Effective retroactively to January 01, 2025
    - o Applicants and recipients in Specified Low-Income Medicare Beneficiary (SLMB) who do not receive Title II – Retirement, Survivors and Disability Insurance (RSDI) income.
  - Effective retroactively to March 01, 2025
    - o Applicants and recipients in SLMB who are receiving Title II – RSDI Income
  - Effective April 01, 2025
    - o Applicants in an active, Non-MAGI program not included in the group above.
- Provide lists of cases to the county when a case or individual is discontinued from Medi-Cal, a Medi-Cal EDBC is Read-Only, a case is not processed through Batch EDBC for any skip reason or when an individual was denied or discontinued prior to the FPL value updates.
- Update the EDBC Skip Reason 'Not all Applicants are on the Determination' skip logic to include criteria to check if a DER is required for the Medi-Cal program being processed in EDBC.

**Recommendation:** Please refer to the attached design document for details on the listed recommendations.

Summarized Recommendations:

1. Operationally execute Batch EDBC. Batch EDBC will run only for the cases identified.
3. Generate lists to aid the counties after Batch EDBC completes.
3. Update EDBC Skip Reason 'Not all Applicants are on the Determination' Skip logic to include criteria to check if a DER is required for the Medi-Cal program being processed in EDBC.
