Automate Reasonable Opportunity Period

	DOCUMENT APPROVAL HISTORY	
CalSAWS	Prepared By	Pooja Jadhav
	Reviewed By	Maksim Volf, Tisha Mutreja, Nikita Gulabani, Soundarya Ramesh, & Naresh Barsagade

DATE	VERSION	REVISION DESCRIPTION	AUTHOR
09/20/2025	1.0	Baseline Design	Pooja Jadhav
10/10/2025	1.1	Updated to remove the Task request and recommendation	Pooja Jadhav and Dylan Patel
10/29/2025	1.2	Updated to remove exceptions and update assumption related to MEDS	Pooja Jadhav
11/13/2025	1.3	Updated based on BA Feedback to add Batch Skip Reason and Batch EBDC	Pooja Jadhav
11/21/2025	1.4	Added note in 2.3.2d to clarify Program ID value	Pooja Jadhav
11/24/2025	1.5	Updated based on Consortium BA feedback and updated the Batch Skip List, added the NOA request and recommendation, updated criteria for 2.3.2.2g	Pooja Jadhav and Nithin Halesh
12/03/2025	1.6	Added an assumption to track the SCR for automation of the Vital Statistics page	Pooja Jadhav
12/09/2025	1.7	Modified the conditions for the ROP Expiration EDBC Sweep, and updated the ART section as No Impact	Pooja Jadhav
12/12/2025	1.8	Updated for Client Correspondence in sections 2.8 and 2.9	Nithin Halesh
12/16/2025	1.9	Added Suppression logic to 2.8.4. and 2.9.4	Nithin Halesh

Table of Contents

CA-270886 – Automate Reasonable Opportunity Period

1 OVERVIEW

Per ACWDL 25-13, if after the Reasonable Opportunity Period (ROP), verification of Satisfactory Immigration Status (SIS) cannot be obtained when it is required or if documentation establishing U.S. citizenship, U.S. National status or SIS is not provided, otherwise eligible individuals 19 years of age and older will be eligible for Restricted Scope benefits.

1.1 Current Design

The Reasonable Opportunity Period (ROP) field on the Citizenship page has no automated functionality meaning that workers must manually update the Citizenship Document to 'Undocumented' and set the ROP Expired field to 'Yes'.

With CA-277267 implemented in Release 24.11, a hierarchy is used to determine the Alien/Citizenship Indicator. When the Document is updated to 'Undocumented' in the Citizenship page, a MEDS EW12 transaction is automatically triggered and sends a value of "U" for the Citizen/Alien Indicator.

CalSAWS considers individuals that meet the following criteria as 'Undocumented':
1. The individual's Birth Country in Individual Demographics is not US or US Territory
2. There does not exist a Vital Statistics record for the individual with a verified US Citizen document
3. There does not exist a Citizenship Detail record for the individual or the Citizenship Detail record effective for the EDBC benefit month is for INS Document = 'Undocumented'

With CA-209076 implemented in Release 20.02,
1. eHIT was updated to send Admin-Verified 'No' for Refused records in a benefit month even if multiple other statuses exist in the same month.
2. The Citizenship Status Detail page was updated to hide Medi-Cal ROP section when 'Not Applicable' or 'Refused' is selected in the Verified drop down.
3. eHIT was updated to only send failed Admin-Verified when 'Pending' status is selected with Expired as 'Yes' in Medi-Cal ROP section or the Verified status is 'Refused'.

Currently, Medi-Cal EDBC rules grant Non-MAGI Restricted scope to individuals whose ROP has expired if the following is true:
1. Individual is aged 19 or older after 01/01/2026
   and,
2. Individual has one of the following on the Citizenship Status Detail Page
   a. Verified = 'Refused'

b. Verified = 'Pending' and ROP has Expired = 'Yes'

Currently, EDBC Sweeps check specific criteria based on the requirement to return only cases that will be processed (e.g. Person was returned in a DER as Discontinued). Cases that do not meet the set criteria are excluded from the run. Skips are registered in the Database and are Reported on. However, for Exclusions, there is no reporting or identification for the reason a case was not picked up and processed.

1.2 Requests

1. Individuals whose ROP has expired should automatically be updated to Restricted scope benefits.
2. Send a Notice of Action (NOA) when the ROP batch reduces the Medi-Cal from full to restricted scope.

1.3 Overview of Recommendations

1. Create a new batch to update the Document to 'Undocumented' on the Citizenship page when the ROP expires.
    a. Update the field ROP Expired to 'Yes' automatically on the Citizenship page.
    b. Create a new Batch Eligibility Sweep Code.
    c. Update the Citizenship record for the individual whose Due Date for ROP has passed.
    d. Send a new MAGI Request with Run Reason 'Continuing' for the come-up month.
    e. Insert a trigger for Non-MAGI individuals for Batch EBDC.
2. Create a journal entry for cases where individuals ROP Expired field was updated to 'Yes'.
3. Create a new batch to run EDBC for the cases where a DER was received with the Batch Reason 'CT2813_15.'
4. Create a new Batch Skip Reason.
5. Regression test MEDS EW12, EW20, and RC20 transactions.
6. Send a notice when the ROP batch reduces the Medi-Cal from full to restricted scope.

1.4 Assumptions

1. There is no change to the MEDS Citizen/Alien Indicator codes (DE 2009) logic. The logic is described in the design document for SCR CA-277267.
2. Individuals identified as Former Foster Youth (FFY) will remain in Full Scope Medi-Cal even if citizenship/satisfactory immigration status is not verified during the 90-day ROP. FFY individuals have Aid Code 4M.
3. Individuals identified as pregnant or within the 12-month post-partum period are not impacted if verification of Satisfactory Immigration Status (SIS) is not submitted prior to the ROP Due Date. These individuals have protection and are therefore eligible to Full Scope Medi-Cal.
4. An individual with an active Expansion Freeze (EF) Indicator for the EDBC Benefit month will be protected with Full Scope eligibility even when ROP is

expired and the 'Document' is updated to "Undocumented" on the Citizenship Detail Page with the implementation of this SCR or manually by a worker.

5. This SCR is only automating the expired ROP actions for individuals who are claiming SIS and are not born in the United States or one of its territories. If the individual is claiming they were born in the United States or one of its territories, they would not have a Citizenship record created, they would have a Vital Statistics record created. The Vital Statistics record does not have the Medi-Cal ROP fields that are present in the Citizenship Status Detail page. A separate SCR has been logged to automate the process for those with Vital Statistics records CA-296181.

2 RECOMMENDATIONS

2.1 Page Name – No Impact

2.2 Eligibility Rules Updates – No Impact

2.3 ROP Expiration Processing (CITZ, EDR, EDBC)

2.3.1 Overview

Create a new batch job 'ROP Expiration Processing (CITZ, EDR, EDBC)', to update the ROP Expired indicator to 'Yes' and update the Citizenship record when the ROP Due Date has passed, send a new MAGI Request EDR to CalHEERS, and insert a trigger for Non-MAGI individuals for Batch EDBC.

2.3.2 Description of Change

1. Create a new Batch EDR Run Reason (CT2813_15) as follows:
   a. Short Decode Name = ROP Expiration Processing (CITZ, EDR, EDBC)
   b. Long Decode Name = ROP Expiration Processing (CITZ, EDR, EDBC)
   c. Batch MAGI Sweep = PB00CH217
   d. Batch EDBC Sweep = PB00E493
   e. Reporting Indicator = Y
2. Create a new batch PB00CH217 'ROP Expiration Processing (CITZ, EDR, EDBC)' to perform the following actions (CT2813_15):
   a. Update the field ROP Expired to 'Yes' on the Citizenship page when the following is true:
       i. The individual is an Active Member on the Medi-Cal program.
       ii. The ROP Due Date is before the batch date.
       iii. The field Expired is currently set to 'No' or <Blank>.
       iv. The Citizenship record is high-dated.
   b. Update the citizenship record for the individual whose 'Due Date' for ROP has passed.
       i. Update the End Date of the high-dated Citizenship Record using the ROP Due Date as the new End Date.

c. Create a new Citizenship record with the following information:
    i.   New Change Reason = Participant Provided – Verbal
    ii. New Reported Date = Batch Date
    iii. Name = Name of identified individual
    iv. Document = Undocumented
    v.   Country of Citizenship = Copy from prior Citizenship record
    vi. Verified = Verified
    vii. Sponsored? ***** = Copy from prior Citizenship record
    viii. Battered? ***** = Copy from prior Citizenship record
    ix. Is this an individual who worked 40 quarters or more, or the spouse, dependent child or unremarried surviving spouse of someone who worked 40 quarters or more? ***** = Copy from prior Citizenship record
    x.   Is this individual a Hmong/Lao tribal member or the spouse, dependent child, or unremarried surviving spouse of a Hmong/Lao tribal member? * = Copy from prior Citizenship record
    xi. Is this individual presently on active duty in the US military or a honorably discharged veteran, or the spouse, dependent child, or unremarried surviving spouse of an active duty member or veteran? ***** = Copy from prior Citizenship record
    xii. Does this individual have, has applied for, or plans to apply for a T-Visa, U-Visa, or VAWA Petition? ***** = Copy from prior Citizenship record
    xiii. Begin Date = The Begin Date of the new record should be the day after the ROP Due Date

    Example:

    An individual has a ROP Due Date of 08/05/2026. The Batch is run on 08/17/2026. The existing Citizenship record is end dated as of 08/05/2026 and the new Citizenship record is created with a Begin Date of 08/06/2026 and is now the high-dated record.

    Note: * *For the indicated fields, also include the associated 'Verified' field.*

d. Send a new MAGI Request for a Medi-Cal Program when all the following conditions are met:
    i.   There is at least one individual whose Citizenship was updated and is an Active Member on MAGI.
    ii. There is no EDR staged for the same Medi-Cal Program, Transaction Type Code, and Effective Date.
    Insert the following values:
    i.   CalHEERS Transaction Type Code = 'Eligibility Determination Request' (CT297_ED)
    ii. Program ID = Program ID associated with the latest valid EDR or DER Transaction. If the latest valid EDR or DER is for a closed program, then use the Program ID associated to the latest Regular, Accepted and Saved EDBC for the active program with at least one Active MEM on a MAGI Aid Code.

Note: CA-273818, which will be implemented in Release 26.03, will introduce a new Batch MAGI Skip to skip a Medi-Cal program when the Primary Applicant on the active Medi-Cal program is not the same as the Primary Applicant associated to the Medi-Cal Program on the latest EDR or DER.

    iii. Effective Date = Come-up month
    iv. MAGI Run Reason = Continuing (CT395_CO).
    v. Batch Indicator of 'Y'
    vi. Batch EDR Run Reasons = ROP Expiration Processing (CITZ, EDR, EDBC) (CT2813_15)

e. Create a new Batch Eligibility Sweep Code (CT942_REX).
    i. Short Decode Name: Batch EDBC ran for individuals with Expired ROP
    ii. Long Decode Name: Batch EDBC ran for individuals with Expired ROP

f. Stage the Medi-Cal Program for Batch EDBC processing with the values defined below based on the following criteria:
    i. Check if the individual(s) processed on the case for ROP Expiration are all Active Members on Non-MAGI aid codes:
        1. If yes, stage the Medi-Cal Program for Batch EDBC processing with the values defined below.
            a. Effective Date = Come-up month
            b. Type Code = Batch Eligibility (CT626_BE)
            c. Sub Type Code = Batch EDBC ran for individuals with Expired ROP (CT942_REX)
            d. Created By = <Job's Staff ID>
            e. Updated By = <Job's Staff ID>
            f. Program ID = <Program ID associated with the Active Member on Non-MAGI>
            g. Case ID = <Case ID associated to the Medi-Cal Program
            h. Run Type Code = Single Program (CT621_SP)
        2. If no, do not stage Batch EDBC processing to allow the EDR to be processed by CalHEERS (Reference Section 2.4).

g. Create a journal entry for cases where a new citizenship record was created for individual(s) with an expired Medi-Cal ROP.

Journal Entry #1: Data Change for Individuals whose Medi-Cal ROP Due Date has Passed	
Trigger Condition	Generate when an individual has ROP 'Expired' field updated to 'Yes'.
	Note: One journal entry should be generated per case. If there are multiple individuals on the case which had the same update, the text will list each of those individuals separated by a comma (i.e. Individual A, Individual B)

Long Description - Journal Entry Verbiage	The Medi-Cal Reasonable Opportunity Period was updated to 'Expired – Yes' and a Citizenship Document Type of 'Undocumented' was added for the following individual(s) with a ROP Due Date that has passed: [Person Name] …
Short Description	Medi-Cal ROP has Expired
Case Types	Active
Journal Category	All
Journal Type	Basic Information

2.3.3 Execution Frequency

Monthly - 3 business days prior to Batch 10-day excluding Saturday, Sunday, and/or holidays.

2.3.4 Key Scheduling Dependencies

Predecessor: Batch EDBC and PB00CH204
Successor: Batch MAGI

2.3.5 Counties Impacted

All Counties

2.3.6 Category

Core

2.3.7 Data Volume/Performance

90 records per month

2.3.8 Failure Procedure/Operational Instructions

Batch Support Operations staff will evaluate transmission errors and failures and determine the appropriate resolution (i.e., manually retrieving the file from the directory and contacting the external partner if there is an account or password issue, etc.)

2.4 ROP Expiration EDBC Sweep

2.4.1 Overview

Create a batch to run EDBC for the cases where a DER was received in response to an EDR with the Batch Reason Code 'CT2813_15'.

2.4.2 Description of Change

1. Create a batch PB00E493 to stage Medi-Cal programs for Batch EDBC processing based on the following criteria:
    a. A DER was received in response to an EDR with the Batch Reason Code 'CT2813_15' and the latest status is 'Reviewed'.
    b. The latest Citizenship record
        i. is created by the <Job's Staff ID> for the ROP Expiration Processing (CITZ, EDR, EDBC) Batch Job,
        ii. has a document type of 'Undocumented', and
        iii. is created on the Batch Run Month.
    c. For all Medi-Cal programs on the case of the DER, Run EDBC (post to SYS_TRANSACT) where the impacted individuals are Active Members.

    Insert the following values:
        i. Effective Date = Come-up month
        ii. Type Code = Batch Eligibility (CT626_BE)
        iii. Sub Type Code = Batch EDBC ran for individuals with Expired ROP (CT942_REX)
        iv. Created By = <Job's Staff ID>
        v. Updated By = <Job's Staff ID>
        vi. Program ID = <Program ID associated with the MAGI Determination>
        vii. Case ID = <Case ID associated to the Medi-Cal Program
        viii. Run Type Code = Single Program (CT621_SP)

2.4.3 Execution Frequency

Monthly – 1 business day prior to Batch 10-day including Saturday but excluding Sunday and/or holidays.

2.4.4 Key Scheduling Dependencies

Predecessor: None
Successor: Batch EDBC

2.4.5 Counties Impacted

All Counties

2.4.6 Category

Core

2.4.7 Data Volume/Performance

N/A

2.4.8 Failure Procedure/Operational Instructions

Batch Support Operations staff will evaluate transmission errors and failures and determine the appropriate resolution (i.e., manually retrieving the file from the directory and contacting the external partner if there is an account or password issue, etc.)

2.5 Batch EDBC

2.5.1 Overview

Create a new Batch EDBC Skip Reason (CT707_RX) and add a new column to the Reference Table (CT2813) labeled 'Skip Discontinued'.

Update Batch EDBC to skip a Medi-Cal Program for the new Batch EDBC Skip Reason.

2.5.2 Description of Change

1. Add a new column to the Reference Table (CT2813) labeled 'Skip Discontinued'.
2. Create a new Batch EDBC Skip Reason (CT707_RX) as follows:
   a. Short Decode Name = MAGI Determination has an individual who is Discontinued or Ineligible
   b. Long Decode Name = MAGI Determination has an individual who is Discontinued or Ineligible

Batch Name	Code	Skip Discontinued
MAGI Redetermination Sweep	01	N
MAGI Age 19 Sweep	02	N
Auto-Rescind Medi-Cal Sweep	03	N
MAGI Age 1 Sweep	04	N
MAGI Age 6 Sweep	05	N
MC-RE Discontinuance	06	N
Duplicate MC Clean-Up	07	N
MAGI Age 26 Sweep	08	N
MAGI Age 65 Sweep	09	N
MAGI Age 50 Sweep	10	N
End of Postpartum Re-evaluation	11	N
Bounce Back Rule Sweep	12	N
SCAI Re-evaluation Sweep	13	N
Aid Code 38 EDR Sweep	14	N
ROP Expiration processing (CITZ, EDR, EDBC)	15	Y

3. Update Batch EDBC to skip a Medi-Cal Program for the new Batch EDBC Skip Reason CT707_RX based on the following criteria:

  a. The Batch processing the Medi-Cal Program is listed in CT2813 Ref Column "Batch EDBC Sweep".

  b. The CT2813 Ref Column "Skip Discontinued" = Y for the BATCH_RSN_CODE identified from the EDR linked to the DER.

  c. There is at least one individual on the MAGI Determination with a status of Ineligible (IE) or Discontinued (DS) where the individual is an Active Member on MAGI aid.

2.7 eHIT – No Impact

2.8 Client Correspondence – Update ALIEN STATUS - FULL TO RESTRICTED Change NOA Generation Conditions

2.8.1 Overview

This effort will update the generation condition logic to generate ALIEN STATUS - FULL TO RESTRICTED NOA reason fragment MC_CH_ALIEN_STATUS_VERIF_FAIL_M159 (fragment ID: 6573) when the Non-MAGI Medi-Cal benefit changes from Full Scope to Restricted Scope.

Reason Fragment Name and ID: MC_CH_ALIEN_STATUS_VERIF_FAIL_M159 (Fragment ID: 6573)
State NOA: MC 239
Current NOA Template: MC_NOA_TEMPLATE (Fragment ID: 3028)
Current Program(s): Medi-Cal (Non-MAGI)
Current Action Type(s): Change
Fragment Level: Person
Repeatable: Yes
Include NA Back 9: Yes
Current Languages: English, Spanish, Arabic, Armenian, Cambodian, Chinese, Farsi, Hmong, Korean, Lao, Russian, Tagalog, and Vietnamese.

2.8.2 Form/NOA Verbiage

There is no change to the NOA Verbiage. Below is the current NOA Verbiage.

Description	Text	Formatting
STATIC_SECTION	Important change to your benefits. Your Medi-Cal changed to restricted-scope on {MonthDayYear1}. Restricted-scope Medi-Cal only covers emergency services, pregnancy related services such as prenatal care, labor, delivery, postpartum care, and long-term care services. If you are not sure if a service is covered, call your medical provider. Here's why: {Person}, your Medi-Cal is changing from full to restricted because you are	Arial Font Size 10

19 or older and you did not send us proof of satisfactory immigration status or U.S. Citizenship for Medi-Cal purposes. You have not contacted us to let us know that you are trying to provide proof.

If you have a share-of-cost, this is listed on the right side of this notice.

If you have proof of your citizenship or immigration status that you can give us now, or want to let us know you are having problems getting your document, please call your county worker at the number listed on this notice. Your benefits may change from restricted-scope to full-scope when you send us your documents. Full scope benefits allow you to see a doctor for all of your medical needs.

If you give us acceptable proof within one year, your Medi-Cal may change back to full-scope Medi-Cal starting the month your restricted benefits began.

In the meantime, your Medi-Cal coverage will continue unless you are found no longer eligible. This could happen at the time your eligibility is renewed or when your situation changes.

2.8.3 Form/NOA Variable Population

1. Full scope to restricted scope Change Reason Fragment Variable Population
There is no change to the Variable Population

2. Current Regulations for the Full scope to Restricted scope Change Reason Fragment

NOA Title Requires Translations: Follows existing MC 239.
NOA Footer: Follows existing MC 239.
NOA Footer Requires Translations: No

2.8.4   Form/NOA Generation Conditions

1.   Update Reason Fragment Generation Conditions

Currently, the reason fragment **MC_CH_ALIEN_STATUS_VERIF_FAIL_M780_NEW** (Fragment ID: 9531) is generated when there is a Medi-Cal scope change from Full Scope to Restricted Scope. Under this update, **MC_CH_ALIEN_STATUS_VERIF_FAIL_M780_NEW** (Fragment ID: 9531) will stop generating when this SCR goes live and generates **MC_CH_ALIEN_STATUS_VERIF_FAIL_M159** (Fragment ID: 6573) when the following conditions are true:

- The program is Medi-Cal
- The Medi-Cal program is active
- The program person's scope has been changed from Non-MAGI Full scope to Non-MAGI Restricted scope.
- This notice will begin generating when the EDBC benefit begin date is on or after SCR go live date.

Suppression Logic
> If MC_CH_EXPANSION_FREEZE_POSTPARTUM_END_M918 (Id: 11415), created in CA-295240 recommendation 2.7, generates the following will occur:
> 1. MC_CH_ALIEN_STATUS_VERIF_FAIL_M159 should not include the postpartum individual. Postpartum individuals will receive M918.
>   a. If the postpartum individual is the only member that is changing scope from Full to Restricted, M159 should be suppressed.
>   b. If there are more members changing scope from Full to Restricted, the postpartum individuals name should be removed from the list of person's names populated in M159.

2.9 Client Correspondence – Update MAGI FULL TO RESTRICTED Scope Change NOA Generation Conditions

2.9.1 Overview

This effort will update the generation condition logic to generate MAGI FULL TO RESTRICTED NOA reason fragment H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H801 (fragment ID: 7027) when the MAGI Medi-Cal benefit changes from Full Scope to Restricted Scope.

Reason Fragment Name and ID: H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H801 (Fragment ID: 7027)
State NOA: MC 239
Current NOA Template: H_NOA_TEMPLATE (Fragment ID: 3033)
Current Program(s): Medi-Cal (MAGI)
Current Action Type(s): Change
Fragment Level: Person
Repeatable: Yes
Include NA Back 9: Yes
Current Languages: English, Spanish, Arabic, Armenian, Cambodian, Chinese, Farsi, Hmong, Korean, Lao, Russian, Tagalog, and Vietnamese.

2.9.2 Form/NOA Verbiage

There is no change to the NOA Verbiage. Below is the current NOA Verbiage.

Description	Text	Formatting
STATIC_SECTION	Important change to your benefits. Your Medi-Cal changed to restricted-scope on {MonthDayYear1}. Restricted-scope Medi-Cal only covers emergency services, pregnancy related services such as prenatal care, labor, delivery, postpartum care, and long-term care services. If you are not sure if a service is covered, call your medical provider. Your Medi-Cal is changing from full to restricted because you are 19 or older and you did not send us proof of satisfactory immigration status or U.S. Citizenship for Medi-Cal purposes. You have not contacted us to let	Arial Font Size 10

	us know that you are trying to provide proof. If you have proof of your citizenship or immigration status that you can give us now, or want to let us know you are having problems getting your document, please call your county worker at the number listed on this notice. Your benefits may change from restricted-scope to full-scope when you send us your documents. Full scope benefits allow you to see a doctor for all of your medical needs. If you give us acceptable proof within one year, your Medi-Cal may change back to full-scope Medi-Cal starting the month your restricted benefits began. In the meantime, your Medi-Cal coverage will continue unless you are found no longer eligible. This could happen at the time your eligibility is renewed or when your situation changes. {MagiRegulation} is the regulation or law we relied on for this decision.	

2.9.3 Form/NOA Variable Population

1. Full scope to restricted scope Change Reason Fragment Variable Population
There is no change to the Variable Population

2. Current Regulations for the Full scope to Restricted scope Change Reason Fragment

Action Type	NOA	Regulations
Change	MC-MAGI-C (11/15)	W&I Code §14011.2; Title 22, C.C.R. §§50301, 50302;

3. NOA Title and Footer Reference for the Full scope to Restricted scope Change Reason Fragment
The following are the references that will be included for the Full scope to Restricted scope Change Reason Fragment.

Action Type	NOA

Change	MC-MAGI-C (11/15)

NOA Reference on Document List Page: MAGI Change
NOA Title: NOTICE OF ACTION MEDI-CAL CHANGE
NOA Title Requires Translations: Follows existing MC-MAGI-C.
NOA Footer: Follows existing MC-MAGI-C.
NOA Footer Requires Translations: No

2.9.4 Form/NOA Generation Conditions

2. **Update Reason Fragment Generation Conditions**

Currently, the reason fragment **H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H807_NEW** (Fragment ID: 9527) is generated when there is a Medi-Cal scope change from Full Scope to Restricted Scope. Under this update, **H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H807_NEW** (Fragment ID: 9527) will stop generating when this SCR goes live and generates **H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H801** (fragment ID: 7027) when the following conditions are true:

- The program is Medi-Cal
- The Medi-Cal program is active
- The program person's scope has been changed from MAGI Full scope to MAGI Restricted scope.
- This notice will begin generating when the EDBC benefit begin date is on or after SCR go live date.

Suppression Logic

If MC_CH_EXPANSION_FREEZE_POSTPARTUM_END_M918 (Id: 11415) created in CA-295240 recommendation 2.7 generates, suppress **H_CH_FULL_SCOPE_TO_RESTRICTED_SCOPE_H801.** H801 generates per person. This suppression will prevent the postpartum individual from receiving two notices (M918 & H801) and allow M918 to generate for the postpartum Individual. Additionally, H801 will generate if there are other members changing scope from full to restricted scope.
