CA-275220 – Update Citizenship Section Codes

1 OVERVIEW

This SCR updates the system to determine eligibility for non-citizens by adding new section codes used for Federal and State benefit programs, including Refugee Cash Assistance (RCA), California Work Opportunity and Responsibility to Kids (CalWORKs), Cash Assistance Program for Immigrants (CAPI), CalFresh (CF), and California Food Assistance Program (CFAP), General Assistance (LA County GA , GA/GR Automated Solutions, Medi-Cal programs.

1.1 Current Design

1. Currently the CalSAWS system has no functionality to determine eligibility for following combinations of Document type and section codes.

Document Type	Section Code
I-151, I-551, Passport or I-94 Annotated with I-551 & Section Code Temporary I-551 Stamp (on passport or I-94, I-94A) Machine Readable Immigrant Visa (with Temporary I-551 Language)	I52
	I53
	IB0
	IB5
	GV1
	GV2
	GV3
	GV6
	GV7
	GV8
I-94	RE
I-688B or I-765 or I-766	A11
Visa Passport with Paroled Stamped with section code	PARCIS

2. CalFresh EDBC determines non-citizen eligibility to the program based on the document type and section codes combination stored in the code table CT360. Once the individual is determined to have an eligible combination of Document Types and Section Codes, EDBC will determine if the individual is eligible to receive Federal funded CalFresh or State funded CFAP as follows:

   Individuals are not subjected to the 5-year waiting period and become eligible to Federal CalFresh if they qualify for any for the following exemption conditions:

   a. If the member is unconditionally CalFresh federally eligible based on their INS Citizenship Category. These qualified aliens are eligible to receive federal

CalFresh indefinitely they are admitted or granted one of the following statuses. These are:

1. Refugees
2. Asylee
3. LPR Asylee
4. LPR Cuban Refugee
5. LPR Indochinese Refugee
6. LPR Amerasian
7. LPR Refugee
8. Deportation withheld

b. If the members Entry date or INS Document Issue Date is at least 5 years prior to the begin date of the 'Benefit Month.' Exception: this does not apply to members on U-Visa document.

c. If the 'Member' is one of the following: These are:

1. Born in the USA
2. Has a citizenship type of 'Naturalized US Citizen'
3. Has a citizenship type of 'US Born Abroad'

d. Determine if the 'Member; is a 'Hmong' [1] or a 'Highland Lao Tribal Member' [1] as indicated by the INS document type and section code and is qualified because of Hmong information (Hmong indicator on Citizenship set to 'Yes')

e. If the 'Member' is a 'Cross Border American Indian' [1] as indicated by the INS document type and section code

f. Determine if the 'Member' is under 18 and the 'Benefit Month' is 10/1/2003 or later

g. If the 'Member' is under 18 and the 'Member's' entry date or INS document issue date is before 8/22/1996

h. If the 'Member' is 'Disabled' or 'Blind' or has 'Other FS Disability'

i. If the person qualifies because of military information (Meets Veteran Status Active-Duty indicator on Citizenship set to 'Yes' or person is a lawful permanent resident veteran as indicated by his document code and section code)

j. Determine if the 'Member' is a 'Lawful Permanent Resident,' as indicated by his document code and section code, and qualifies for 40 quarters (40 qualifying work quarters indicator on Citizenship set to 'Yes').

    k. Individual's citizenship type of 'Parolee' with date of
       entry between 02/24/2022 and 09/30/2023 and has any of the following
       section codes:

       1. UHP
       2. U4U
       3. 212(d)(5) or 8 U.S.C. § 1182(d)(5)
       4. 212(d)(5)(A) OAR
       5. 212(d)(5)(A) OAW
       6. 212(d)(5)(A) DT
       7. C11

  l. Individuals with the following section codes:

       1. SI8
       2. SQ8

  <u>If the individual is not eligibility for federal CalFresh based on the
above conditions, then the household is eligible for CFAP.</u>

3. Non-Citizens with citizenship type 'Parolee' and with a parolee type 'Parolee-Less than 1 year' are not eligible for Federal CalFresh or CFAP.

Note: Current design does not include the SCR CA-294574 changes being implemented with 26.03.31 release.

1.2 Requests

1. Update the section code drop down on Citizenship Status Detail page to include the following section codes:
   - Add Section code(s) RE to the existing Document type I-94
   - Add Section code(s) 'A11' to 'I-688B or I-765 or I-766'
   - Add Section code(s) IB0, IB5, I53, I52, GV1, GV2, GV3, GV6, GV7, GV8 to the below existing Document types
     - 'I-151, I-551, Passport or I-94 Annotated with I-551 & Section Code'
     - 'Temporary I-551 Stamp (on passport or I-94, I-94A)'
     - 'Machine Readable Immigrant Visa (with Temporary I-551 Language)'
   - Add Section code 'PARCIS' to a new Document type 'Visa Passport with Paroled Stamped with section code'
2. Update the EDBC logic to determine eligibility for the new section codes being implemented through this SCR.
3. Update the existing Citizenship records to replace blank section codes with **"No Section Code"** for the following document types:
   - Temporary I-551 Stamp (on passport or I-94, I-94A)'
   - 'Machine Readable Immigrant Visa (with Temporary I-551 Language)'.
4. Update eHIT to send immigration information to CalHEERS.
5. Manual Regression testing for MEDS transactions is required.

1.3 Overview of Recommendations

1. Update the "Non-Citizen Reference Table" code detail table CT 360 and GA/GR "Non-Citizen Reference Table" code detail table CT 10653 for the new Document Types and Section Codes being implemented with this SCR.
2. Update eligibility requirements for CW, RCA, CF, CFAP, CAPI, LA County GA, GA/GR and MC Programs to provide benefits for the additional citizenship categories.
3. Update existing Citizenship records to replace blank section codes with **"No Section Code"** for the following document types:
   a. Temporary I-551 Stamp (on passport or I-94, I-94A)'
   b. 'Machine Readable Immigrant Visa (with Temporary I-551 Language)'.
4. Update eHIT to send immigration information to CalHEERS.
5. Update Daily Batch and RECON transactions to send appropriate MEDS Codes.

1.4 Assumptions

1. CalHEERS VLP functionality will not change with this SCR.
2. The current system functionality sets ineligible non-citizens to 'FRE' role with a reason of 'Ineligible Non-Citizen'. This functionality will remain unchanged as part of this SCR.
3. The SCR CA-294574 (H. R. 1 ACL 25-50 Changes to CalFresh Eligibility for Most Lawfully Present Non-Citizens) updates the CFAP eligibility functionality for non-citizens. These changes will remain the same and the same approach will be followed for the new section codes being added as part of the current SCR.
4. No impacts to TCF/SNB/TNB program.
5. Eligibility updates are based on the CDSS response from CRPC 2429 and Policy Interpretation 24-10.
6. Medi-Cal Eligibility updates are based on the DHCS response from CRPC 2125.
7. The SCR CA-292491 (Update Eligibility for Cuban, Haitian, Nicaraguan and Venezuelan Non-Citizens) will address changes related to the eligibility of Cuban and Haitian non-citizens.

Create new and updated existing regression test scripts based on the system test scenarios for the permanent functional changes outlined above.
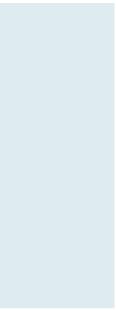

2.6.2 Description of Change

1. Evaluate each system test scenario for the potential of automation. Known exclusionary criteria:
    1. Temporary or one-time changes (ex., Data Change Requests, operational batch job execution)
    2. Technical limitations (ex., visual comparison of a static document against a template)
    3. Security restrictions (ex., access to an external service requiring Multi-Factor Authentication)
    4. Required manual intervention (ex., physical printing, document scanning, forced service outage)
2. For each scenario determined to be an automation candidate, modify the system test scenario to be executable as part of the Regression Test Suite. This may include the following:
    1. Repeatability: The script must be able to execute multiple times between data refreshes.

2. Targetability: The script must fully and accurately verify the actual result against the expected result of the scenario.

3 SUPPORTING DOCUMENTS
