26.03	22-Mar	SCR	CA-251746	Batch/Interfaces	N/A	John Pratt	Under prior functionality, abstracts would auto close base on program hierarchy (with CalWORKS ranked highest), which could result in CalFresh (CF) related income not being fully evaluated before disposition.	This update modifies System logic so that IFDS abstracts do not automatically close and remain open when CalFresh (CF) income is reported and still requires review or action. Staff must review and complete the appropriate eligibility determination and case actions before disposition. No changes are being made to existing security roles or task assignment functionality. 26.03	22-Mar	SCR	CA-233675	Eligibility	Foster Care	Ignacio Lazaro	The 9Y (Substance Abuse) aid code was not on available selection in the System causing difficulties for Counties to properly claim against those placement types.	The 9Y (Substance Abuse) aid code is available and Foster Care EDBC logic assigns the new aid code to eligible placement. Fiscal Reports also generate for the 9Y risk code.		No County Action Needed
26.03	22-Mar	SCR	CA-275191	Eligibility	CalFresh, CalWORKs	Norma Meza	The System automatically generates the SAR 72 for the CalWORKs (CW) and/or CalFresh (CF) programs when the recipient is a sponsored non-citizen; however, the SAR22 would only generate for CW and not for CF. The data field Willing to Comply by Providing Sponsor's information on the Citizenship Status Detail page must be marked as Yes for EDBC to determine eligibility to CW and/or CF. Additionally, the System did not auto-generate a journal entry when a CW and/or CF indigent individual is approaching their Re-Evaluation (RE).	1. EDBC logic does not require for the sponsored noncitizen to provide sponsorship information when determining indigence period. 2. Journal entry auto-generates for upcoming CW and/or CF REs that include an individual with indigence period. 3. The SAR 72 does not auto-generate when the sponsored noncitizen is determined to be within their period of indigence. 4. The display of the data field Sponsor abuse with substantial connection between cruelty and the need for benefits moved for page consistency. 5. The SAR 22 generates for both CW and/or CF programs. 26.03	22-Mar	SCR	CA-290000	Eligibility	CalFresh	Norma Meza	When the System denies CalFresh for the application month, but approves the second month, the System sets the ES indicator as Yes on the second month EDBC based on the application date.	EDBC Expedited Service logic is updated for ES eligibility to be based on the determination for the first month of CalFresh, rather than solely relying on the application date. The ES indicator is not set if the first month of CF is determined ineligible, ensuring that Expedited Service is only applied when initial eligibility criteria is met.		No County Action Needed

26.03	22-Mar	SCR	CA-273253	Eligibility	CalFresh	Norma Meza	When the user enters SSI/SSP, SSI Only, or SSP Only income starting in the month after the application month, the System delays the benefit change until the come-up month (i.e., the second month after the application month), instead of applying it in the immediate next month. This behavior occurs even though all months in the EDBC run are still pending, and the case is not yet presented.	The 10-day adequate notice logic is now ignored when the EDBC run for CF program includes the pending intake month, and the income type is SSI/SSP, SSI Only, or SSP Only.		No County Action Needed
