26.03.31	31-Mar	Defect	CA-297059	Reports			The logic was validating only the Case Number, County Code and Aid Code while performing this comparison. It was not validating the Program Application ID. As a result, the logic incorrectly matched records where Case Number, County Code and Aid Code were same, but the PGM APP IDs were different, which led to an incorrect inclusion of the case in Line 1b, creating a duplicate.	The logic was updated to include PGM_APP_ID along with Case Number and other fields while validating the conditions between Line 4A (current month) and Line 1 (previous month). 26.03.31	31-Mar	SCR	CA-297235	Medi-Cal/CalHEERS	Medi-Cal/MSP/CMSP	Maggie Crazco-Vega	With CA-291142 an Expansion Freeze (EF) record was created for: Individuals receiving full scope Medi-Cal that are not US citizens or do not have Satisfactory Immigration Status (SIS). This included individuals with incomplete Vital Statistics records and all individuals active on Medi-Cal Former Foster Youth aid code 4M regardless of citizenship. A new batch job [P8005891] was created to end date EF records when the individual's latest Active MEM status is at least 3 months prior to the batch month (end of the grace period).	The EF records were deleted for individuals active on aid code 4M that have Satisfactory Immigration Status or are US Citizens. The EDBC rules will no longer create the EF records for these individuals. A list of deleted records was created for counties for informational purposes only. Batch job P8005891 was updated to also check that the individual is not pending as of the batch date. A one-time list of EF individuals with an incomplete Vital Statistics record was created for county review.			Review List
