26.07.30	7/30/2026	Defect	CA-302870	Client Correspondence			The CalWORKs Recoupment Begin Change NOA was failing while rendering when generated in Armenian, causing the NOA to be placed in a Printing Error status.	The CalWORKs Recoupment Begin Change NOA will be generated in English			No County Action Needed
26.07.30	7/30/2026	SCR	CA-294234	Infra Contact Center	N/A	Logan Pratt	When an agent is actively engaged in one chat in eCCP, they are unable to update their upcoming activity to Break, Lunch, or Meeting. As a result, they cannot prevent a second chat from being routed to them. This forces agents to refuse the second chat whenever they are scheduled to transition to a non-chat activity immediately after their active chat.	Agents are now able to update their status and prevent a second chat from being routed to them. While the agent is active in a chat in ECCP they can select their next status from the drop list menu. The next activity selected by the agent automatically takes effect as soon as the active chat ends.			No County Action Needed
26.07.30	7/30/2026	Defect	CA-301436	Online			For some worker schedules, when clicking the schedules on the Office Schedule or similar pages to navigate to the Availability List page, the worker ID was not initially populated.	When clicking the schedules on the Office Schedule or similar pages to navigate to the Availability List page, the worker ID will always initially be populated.	PRB0053572		No County Action Needed
26.07.30	7/30/2026	SCR	CA-300564	Medi-Cal/CalHEERS	Medi-Cal/MSP/CMSP	Maggie Orozco-Vega	Expansion Freeze records were inadvertently created for certain individuals who are US Citizens or have one of 13 document type/section code combinations described in this SCR.	The Expansion Freeze records were deleted.			No County Action Needed
26.07.30	7/30/2026	SCR	CA-302396	Fiscal	CalWORKs	Gingko Luna	SCATL does not have validation for invalid months for the "3H - CW-Zero Parent (Mixed)" aid code.	SCATL has validation for invalid months for the "3H - CW-Zero Parent (Mixed)" aid code.			No County Action Needed
26.07.30	7/30/2026	Defect	CA-299537	Reports		Marlene Rangel	Update the DHCS CMSPi to report MAGI Denials when a person is evaluated for MAGI and Non-MAGI but is approved for Non-MAGI.	Curation code changes implemented by updating the logic to identify the corresponding MAGI determination using the EDBC ID from the BUDGET table. Added logic to generate the missing MAGI denial record and populate the required report fields.	N/A		No County Action Needed
26.07.30	7/30/2026	SCR	CA-300925	Reports	Other	Marlene Rangel	The Appointments and Tasks Assigned to Unavailable Workers Report and the CalWORKs and CalFresh Redetermination or Recertification Appointment Report have not been updated to use the new workload management data model.	The Appointments and Tasks Assigned to Unavailable Workers Report and the CalWORKs and CalFresh Redetermination or Recertification Appointment Report have been updated to use the new workload management data model.			No County Action Needed
26.07.30	7/30/2026	SCR	CA-297154	Reports	N/A	Marlene Rangel	Daily EVOC-EVSVS Report does not have an exceptions sheet.	Daily EVOC-EVSVS Report will have a new sheet for the exceptions for the skipped adjustments not sent in the file when the fund code, fund code details, function codes, object and unit values are empty.			No County Action Needed
26.07.30	7/30/2026	Defect	CA-302423	Reports			1: Recoveries of Aid Showing Under Incorrect Detail Tab and Missing from Summary 2: Future Dated Benefits Incorrectly Showing in Detail Report 3: Expungements Incorrectly Categorized as Recovery of Aid 4: Reactivated Expungement Incorrectly Reported as a Negative Recovery of Aid 5: Unclaimed Recoveries of Aid Showing as a Positive Amount	1: The curation logic was updated so records no longer default to Recovery of Aids when they do not match a Type Column condition; instead, those records are excluded from the Detail sheet unless they belong in the Recoveries of Aid table, which they do not. 2: Future Dated Benefits are removed from the Detail report by aligning Main Payroll logic, ensuring the Benefit Month is driven by the Effective Date from the ISSUANCE table rather than ISSUANCE_DETL_STAT_DATE. 3: The EX (Expunged Benefit) transaction type code was added to tag the affected records, to ensure the affected records are correctly identified in the Prior Month Cancellation logic. 4: A transaction type mapping was added for RE (Reactivated Expungement) records so they are classified under Prior Month Supplemental instead of falling into the fallback Recovery of Aids category. 5: The amount conversion logic was updated to make it negative only when Amount > 0, so negative source amounts for Unclaimed records remain unchanged. This fixes the issue in both the Detail and Summary reports.	PRB0053712		No County Action Needed
