**CalSAWS CCB Questions and Answers for Thursday, June 4, 2026**

SCR Number	County/Region	Question	Answer	Team Responsible
CA-293533/ CA-298089	Riverside	Riverside has some concerns/questions regarding the Content Revisions for SCR's CA-293533 and CA-298089. It is our understanding that CA-293533 was removed from the 26.05 release; however, JIRA still shows 26.05 and that it is currently in production. Is there an update as to when JIRA will be updated?  Additionally, CA-298089 also states it was part of the 26.05 release but isn't this functionality contingent on CA-293533?	CA-293533 was implemented in 26.05 with the update request that the Return Mail interface was turned off until SCR CA-300289 is implemented. With the turn off for the interface, CalSAWS will not process the address update or create task or journal. Central Print continues with the current process for Return Mail.	Batch/Interfaces
CA-300341	Stanislaus	Stanislaus County has the following comment about SCR CA-300341 CF Processing HR1 Workgroup - Update Income is Less than Expense Nudge  The JIRA SCR does not match the Current Design, Request, or Recommendations in the design document.	JIRA has been updated	Online
CA-297408	San Bernardino	1.Section 2.7.1 (Overview) lists English as the only available language option for the GEN 201-R. How will the system handle cases where the client's preferred language is something other than English? 2.Section 2.7.3 (Form/NOA Variable Population), Fields 10 and 11 (Gross Pay Amounts From and To Date): The example provided is unclear. Does "02-2020" refer to February 2020 or the 2nd quarter of 2020? If it refers to the 2nd quarter of 2020, the gross pay "from" and "to" dates should be 04/2020 through 06/2020, not 01/2020 through 03/2020. The IEVS IFDS Process Quarter is based on calendar quarters (three-month periods), not individual months. Clarification is important because this could result in incorrect dates being populated on the GEN 201-R.	Since there is no Threshold languages implemented as part of this SCR. Even client's preferred language Threshold ., English will be generated.  This field is based on the quarterly IFDS file and will display the first month of the quarter along with the processing year. The document has been updated with the below example for clarification The value will be populated as follows: •01/YYYY – If the IFDS Processing Quarter falls in January, February, or March •04/YYYY – If the IFDS Processing Quarter falls in April, May, or June •07/YYYY – If the IFDS Processing Quarter falls in July, August, or September •10/YYYY – If the IFDS Processing Quarter falls in October, November, or December	Client Correspondence
