CA-265851 – Update IRT limit amount logic on SAR 2, SAR7/SAR2 and SAWS 30 forms

1. Overview

The purpose of this SCR is to update Income Reporting Threshold limit (IRT) amount logic on SAR 2, SAR7/SAR2 and SAWS 30 forms for CalFresh (CF) cases that have gross income between 131%-200% FPL.

1.1 Current Design

Currently, CF IRT limit amount is incorrectly populating a value on SAR 2, SAR7/SAR2 and SAWS 30 forms. The CF will not get an IRT value of N/A even though the gross income is between 131%-200% FPL.

1.2 Requests

Update IRT limit amount logic on SAR 2, SAR7/SAR2 and SAWS 30 forms. The CF IRT should be 'N/A' if the CF household types (CalFresh NACF, PACF SSI/SSP-Only, PACF GA/GR-Only, PACF Multiple PA, and PACF Mixed Household) that has gross income of 131% FPL-200% FPL. The CF Household IRT would be N/A until their next SAR 7 or CF RE, whichever is first.

1.3 Overview of Recommendations

Update IRT limit amount logic on SAR 2, SAR7/SAR2 and SAWS 30 forms for CF Household types (CalFresh NACF, PACF SSI/SSP-Only, PACF GA/GR-Only, PACF Multiple PA, and PACF Mixed Household) that have gross income of 131%-200% FPL.

1.4 Assumptions

1. There are no changes to the form generation conditions for any of the forms listed in this design document, unless otherwise called out in the recommendation section.

2. RECOMMENDATIONS

2.1 Page Name– No Impact

2.2 Eligibility Rules Updates – No Impact

2.3 Batch Name – No Impact

2.4 Interface Name – No Impact

2.5 eHIT – No Impact

2.6 Client Correspondence – Updates to the IRT Limit Logic

2.6.1 Overview - Updates to the IRT Limit Logic

Update IRT limit amount logic on SAR 2, SAR7/SAR2 and SAWS 30 forms.

The CF IRT should be 'N/A' for CF Household types (CalFresh NACF, PACF SSI/SSP-Only, PACF GA/GR-Only, PACF Multiple PA, and PACF Mixed Household) if the CF Household has gross income of 131% FPL-200% FPL. The CF HH IRT would be N/A until their next SAR 7 or CF RE, whichever is first.

2.6.2 Form/NOA Verbiage

There are no changes to the Form/NOA verbiage of the SAR 2, SAR7/SAR2 and SAWS 30 forms.

2.6.3 Form/NOA Variable Population

The following field needs to be populated in SAR 2, SAR7/SAR2 and SAWS 30 forms when generated:

Field Name	Data to be populated when generated
Your IRT is	The CF IRT will be 'N/A' if the CF HH has gross income of 131% FPL-200% FPL. Note: The 131% FPL-200% FPL information found in CT table 351. Technical Note: The CalFresh Types can be found in DB table FS_EDBC and column HH_CAT. The HH_CAT should be any one of the following: CalFresh NACF (NAC), PACF SSI/SSP-Only (PSS), PACF GA/GR-Only (PGG), PACF Multiple PA (PMU), and PACF Mixed HHs (PMI)

2.6.4 Form/NOA Generation Conditions

Form Print Options and Mailing Requirements

Print options will remain the same for the SAR 2, SAR7/SAR2 and SAWS 30 forms

2.7 [Report Name] – No Update Required

2.8 [Data Warehouse Name] – No Update Required

2.9 [Data Change] – No Update Required

2.10 [Automated Regression Test] – No Update Required
