CA-303482 Update CF 886 Trigger Conditions

1 OVERVIEW

Purpose of this SCR is to update generation conditions for the CF 886 to inform CalFresh households about their Work Registrant and ABAWD status.

1.1 Current Design

CF 886 is currently generated via EDBC and is also available via Template Repository. Per CalFresh policy (7 CFR 273.7(c)(1)(ii)), the CF 886 must only be issued at certification, recertification, and whenever an individual becomes newly subject to the work requirements. Currently, CalSAWS automatically generates the CF 886 at Intake, Recertification (RE), when there is a change to Work Registration or ABAWD status, and when the exemption reason changes.

1.2 Requests

Update CF 886 trigger conditions when generated from EDBC.

1.3 Overview of Recommendations

1. Update CF 886 trigger conditions when generated from EDBC.

1.4 Assumptions

1. The system has functionality to only display the bold paragraph under section "WORK REQUIREMENT FOR ABLE-BODIED ADULTS WITHOUT DEPENDENTS (ABAWDS)" for counties that are under the ABAWD waiver. Counties that are losing the waivers will not have the bold paragraph.
2. CalSAWS received approval from CDSS to not include "Section 1" & "Section 2" label that is displayed in the mockup. CF 886 will only display the section titles.

2 RECOMMENDATIONS

As part of this SCR, CalSAWS will be update CF 886 trigger condition when generating from EDBC.
