CA-304158 – Update Trigger Condition for CF 377.11B Batch

1 OVERVIEW

The purpose of this SCR is to update the form CF 377.11B – “CalFresh Countable Month Letter Use of Countable Month for ABAWDs” batch generation conditions.

1.1 Current Design

Currently, CF 377.11B is generated through the batch process when the first or second ABAWD Time Limit Record with a status of “Did not meet work requirement” is created for a past, current, or future month.

However, if an existing ABAWD Time Limit Record for a past or current month is updated to “Did not meet work requirement,” the CF 377.11B is not generated by the daily batch process.

1.2 Requests

Update the CF 377.11B batch trigger conditions to generate the form when an existing ABAWD Time Limit Record is updated to “Did not meet work requirement” for a past or current month.

1.3 Overview of Recommendations

Update the CF 377.11B batch trigger conditions to generate the form when an existing ABAWD Time Limit Record is updated to “Did not meet work requirement” for a past or current month.

1.4 Assumptions

1. The existing CF 377.11B generation logic for newly created ABAWD Time Limit Records will remain unchanged.
2. There are no changes to the CF 377.11B form verbiage.
